THE LEASES ARE EXPIRING.

Land Owners Not Desirous of Extending Oil Land Leases.

One of the land owners in the oil region west of this city said to a News reporter yesterday: "The leases of the Carthage company on the land in Duval township are expiring now and some of the land owners do not intend to extend the leases any longer. One of the leases expired the other day and the land owner refused to extend it and I think the lease on my land expires in a day or so and I am not going to extend it. There is a man out from Ohio who is interested in a number of big oil wells in that state who has been out here looking over the land and he is willing to thoroughly prospect the ground on his own responsibility and the property owners are inclined to give him a chance."

TOTALLY DESTROYED LAST FRIDAY MORNING

Fire Supposed To Have Caught From A Defective Flue—No Insurance.

The Mt. Moriah church seven miles southwest of this city was totally destroyed by fire early last Friday morning, together with its contents consisting of an organ and the Sunday School Library.

Rev. Ferguson, of this city who is pastor of the church, had been conducting a revival meeting at that place. An all day meeting was held in the church Thursday, a basket dinner being served. In the evening services lasted until 9 o'clock. At the time of closing the church the fire in the two stoves, both leading by pipes into one chimney, had burned down into coals. All seemed perfectly safe, although no particular investigation was made, as to thought of accident occurred to anyone.

At 3 a.m. those living near were awakened and startled by a lurid light that illumined their houses. Mrs. Conrad, E. A. Robinson and G. W. Thomas all living half a mile west of the church were the families first aroused by the flames.

The building being a frame structure, burned like tinder and in one hour was completely destroyed. It cost between \$1,000 and \$1,500 when erected many years ago. The cause of the fire is supposed to have been a defective flue.

The members are making arrangements to rebuild the church, but the new structure will not be large as the old one and possibly the location may be changed to a mile or so south of the old site.

The destruction of the church did not put a stop to the revival meetings but they have continued from night to night at the Shiloh school house one mile south.

A Fine One.

W. H. Clouser, the well known farmer and stockman living in the Zion neighborhood received by express Tuesday a thoroughbred Poland China male hog. Mr. Clouser got the animal from J. J. Schmitt a prominent stockman of Hartwell Nebraska and it cost him \$40. It is nearly eight months old and weighs over 200 lbs. All who saw the animal pronounced it a fine specimen.

Dr. Geo. D. Andrews spent several days in Jasper this week on his way to his home at Grandin after a visit with his children at Olathe, Kansas.

Mr. and Mrs. Bailey, of Illinois, are visiting the latter's parents, Mr. and Mrs. Coiner, north of this city.

PLEASANT HILL LITERARY.

Held an Interesting Session Saturday Night.

The literary at Pleasant Hill, two miles south of Jasper is progressing nicely. A good program was rendered last Saturday night, consisting of a debate, recitations, etc. The recitation by Otto Rotsch brought down the house. The debate was on the subject "Resolved that the art of nature is more pleasing to the eye than the art of man." The leaders were Martin Roberts for the affirmative and Herman Hoover for the negative. The decision was in favor of the negative.

The subject for discussion for next Saturday night is: "Resolved that the United States is justified in its actions toward the Philippines and Cuba".

The officers of the society are: Martin Roberts, president, and Miss Grace Howard, secretary. All are invited to attend this literary. The Jasper High School glee club, composed of Homer King, Marion Van Dusen, Homer Deardorff and Troy Masters will sing a number of selections at the literary next Saturday night, Nov. 15, 1902.

Back On a Visit.

Frank Kaffman, who drew a claim in Oklahoma last year, returned last week for a visit with relatives. His claim is near the town of Roosevelt and is within three miles of the new railroad just completed through that section of country. Mr. Kaffman raised a good crop of kafir corn and a fair crop of cotton on his claim during the past season.

FARM HOUSE BURNS.

Residence of Amos Harvey Goes Up in Smoke.

The farm house of Amos Harvey near the Sheridan school house southwest of Jasper was destroyed by fire about noon last Tuesday. Mr. Harvey was coming in from the field to dinner and when nearing the house he noticed a small blaze coming out of the roof. He quickly secured a bucket of water and climbed on the roof and made a heroic effort to put the fire out, but it had made too much headway. Seeing that further effort would be useless, he turned his attention toward getting the things out of the doomed house, and with the assistance of some of the boys of the Sheridan school and neighbors some of the things were gotten out, although most of the contents were burned. Among the articles saved was a pair of Mr. Harvey's pants containing \$50 in the pocket. The family have moved in with Mr. Harvey's father. He will probably rebuild in the spring.

Old Folk's Day.

Last Sunday was "Old Folks" day at the Methodist church. Rev. King, superannuated Methodist preacher, of Lebanon preached to the old people both morning and evening. Rev. King was pastor of the Carthage circuit over twenty years ago when it comprised Green Grove, Mt. Moriah, Medoc, Nashville and Lynnland. Among his hearers were a number of his old acquaintances.
